JAPAN MAY SEEK TO STRENGTHEN PROTEST

Further Representations from Japanese in Support of Protest Forecasted

AMBASSADOR IS BUSY

Calls Twice at State Department to Inquire When Governor Would Probably Act

JAPAN EXPECTS SETTLEMENT

WASHINGTON, MAY 15.—Further representations from the Japanese government in support of its protest against the California land legislation were forecast to day when Viscount Chinda, after being informally notified of Governor Johnson's intention to sign the land bill, called twice at the state department to inquire when the governor probably would act.

After the ambassador's first visit acting Secretary Moore went to the white house and spent half an hour discussing the situation with President Wilson. It is understood, however, that Mr. Moore was able to throw little light upon Gov. Johnson's intentions when he saw the ambassador later.

Viscount Chinda's calls gave rise to the impression in official circles that Japan is not inclined to delay pushing her protest, and that another formal communication probably will be forthcoming as soon as the California bill actually is signed.

Discusses Framing of Reply.

Meanwhile President Wilson, in a preliminary way at least has been discussing with Acting Secretary Moore the course to be pursued in framing a reply to the original protest. This subject will come before the cabinet meeting, but the answer may not be immediate, unless the Japanese government is insistent. It is known that the president is proposed to proceed with as much deliberation as diplomatic usage will permit.

It has developed that the Japanese government has not suggested The Hague tribunal as a means of settling the issue, whence the conclusion is drawn here that Japan does not by any means regard the sources of diplomacy as having been exhausted to the point where arbitration is the only resort.

Expect Settlement.

Press dispatches from Tokio conveying the opinon of high Japanese officials that a permanent and satisfactory settlement of the difficulty is confidently expected in that capital were welcomed in official circles here to day. This was taken to mean that the negotiations are at least assured of peaceful and orderly progression, and that there is little likelihood of an evolution of feeling that might result in a rupture of diplomatic relations.

Administration officials believe that the Japanese government is well aware of two important facts:

First. That the United States government has honestly exerted itself to the extent of its resources to prevent the enactment of the legislation; and secondly that in making treaties with the United States a nation is expected to have in mind the respective functions of national and state government under our dual system, and not to expect the administration to undertake to pass beyond the constitutional limitations in its dealings with the states.

INFANTRY REGIMENTS WILL ENCAMP AT CAMP LINCOLN

State Administration Seeking Economy Changes Usual Plans For This Year.

Springfield, Ill., May 15.—All infantry regiments of the Illinois national guard will encamp at Camp Lincoln this city this year. It has been the practice for several years to send two or three regiments to the regular army posts for instruction. Seeking to carry out a policy of economy the state administration has, however, changed the plans for this year.

retained and will be in direct charge

Adjutant General Dickson will be of the encampment.

THAW TESTIFIES AT BRIBERY TRIAL

DECLARES RUSSELL FIRST SUGGESTED THAT HE MIGHT BUY HIS RELEASE

Witness Declares John N. Anhut Now on Trial Did Not Act as Attorney For Thaw But as Attorney for Dr. Russell to Conclude Negotiations For Thaw's Release.

NEW YORK, MAY 15.—Dr. John W. Russell, former superintendent of the Matteawan State Hospital for the Criminal Insane first made the sugestion to Harry K. Thaw that he could be released by the payment of a large sum. Thaw testified to day at the bribery trial of John N. Anhut here. Anhut, a young attorney is charged with offering Dr. Russell a bribe of $20,000 for an order or certificate which would result in freeing Thaw from further confinement in the asylum.

Thaw was brought from Matteawan to testify. He was subjected to a rigid examination and cross-examination. Objections of counsel for the defense that Thaw legally insane, was not competent to testify were overruled by court, who, however, held that his testimony might be considered as that of an insane person.

Under cross examination Thaw said in all he had spent $65,000 in efforts to secure his release from Matteawan. This sum he said, was exhaustive of the expenses of his two trials for the killing of Stanford White.

Was Swindled at Trials.

"I was pretty well swindled on my two trials here," Thaw declared. "The costs were something tremendous."

The witness said he secured 140 hsares of a gas company stock valued at about $20,000, and $5,000 cash from his sister, Mrs. George Carnegie, all of which was to be turned over to Dr. Russell. His agreement with Anhut called for the return of $25,000 if he did not walk out of the door of the asylum or was not released by the court by specified dates. He said Anhut paid him back $14,700 of the $25,000 on January 1, last, when the plan had failed.

Anxious to Be Free.

Thaw said he was anxious to get out of Matteawan, but in doing so he did not desire to injure any one. He did not see Anhut as an attorney for himself, he said, but as attorney for Dr. Russell to conclude the negotiations for his release.

Dr. Russel resigned as superintendent at Matteawan shortly after Governor Sulzer, sent Colonel Scott, then superintendent of prisons, a letter demanding Dr. Russell's removal. The governor's action resulted from disclosures in an investigation of the matter at Albany at his instigation last February.

Court was adjourned until tomorrow morning immediate'y following the announcement that Thaw's testimony was concluded. Thaw was taken to Matteawan tonight.

CONVENE AT ST. PAUL.

St. Paul, Minn., May 15.—The Minnesota classes of the German Reformed church meeting here in annual convention here tonight elected Rev. Paul Clug, St. Paul, president; Rev. Edward Vornholt, Lacrosse, Wis., vice-president, and Rev. T. Hoernamann, Wabash, Ind., state clerk.

Adjourned at 12:35 p. m. to noon Friday.

HOUSE SPEAKER WILL PUSH ROUTINE WORK

M'KINLEY WILL PROCEED WHETHER OR NOT A QUORUM IS PRESENT

With Many Members Absent Yesterday and Others Hurrying for Trains the Attendance Today is Expected to be Far Short of Quorum.

SPRINGFIELD, ILL., MAY 15.—Speaker McKinley made it certain to day that the house will go ahead with its routine work tomorrow whether there is a quorum present or not when he announced to day that "the speaker will be very deaf to any one who attempts to raise the question of a quorum tomorrow."

The assertion followed the notice given by Representative Shanahan, Republican floor leader and chairman of the house appropriations committee, that it would be be necessary to take up second reading bills tomorrow to which severa members objected on the ground that it has not been customary for the house to consider second reading bill on Friday.

With a fourth of the house members absent to day and many others hurrying to catch afternoon trains for home, it was apparent that the attendance tomorrow would fall far short of a quorum.

After advancing half a dozen bills to third reading and referring to committees a number of new bills, the house concurred in the senate joint resolution providing that when the houses adjourn tomorrow that shall stand adjourned until next Tuesday morning. In the senate several bills were passed and fourteen inrtoduced it being the last day under the rules for the introduction of bills. A like number were advanced to third reading.

Extend Life of Commission.

The senate this morning concurred in House Joint Resolution 1, extending for two years the life of the commission created two years ago to investigate and codify the fire insurance laws of the state.

Senator Shaw reported to the senate S. B. 449 (Shaw) with a recommendation that it pass, basing his action on an alleged meeting of the labor committees this morning. Senator Barr, called attention to the fact that Senator Shaw has promised him a hearing on the bill whereuyon Senator Shaw withdrew the measure. It is the full switching crew bill upon which a hearing as had yesterday.

Senator Beall, Chairman of the Fish and Game committee, reported out a committee substitute for S. B. 522 (Canady) the administration measure consolidating the fish and game departments and amending the fish and game laws. It was advanced to second reading.

S. B. 77 (Shurtleff) giving cities the right to license and regulate vehicles, was referred to the committee on municipalities.

S. B. 530 (Carman) Giving court stenographers the right to take examinations and secure the title of registered court reporters, was referred to the appropriation committee after amendment by the senate.

Senator Weage, undertook to advance S. B. 538 (Weage) the administration measure giving cities the right to own and operate public utilities. Owing to another bill of the same subject already being on third reading objections were raised, pending an investigation of the bill. It remaned on second readng.

S. B. 284 (McClean) Guarding against fraud in dairy products was taken from second reading and sent to the appropriations committee.

S. B. 468 (Hay) Increasing the salaries of appellate court clerks was withdrawn from third reading and referred to the appropriations committee.

Concur in House Amendments.

In the face of objections from Senator Hay, the senate this morning concurred in the house amendments to S. B. 214 (Juul) changing the revenue law insofar as it relates to taxes raised for the purpose of paying interest on municipal bonds.

Senator Hay thought the senators should have time to study the house amendments, but the Chicago members urged immediate action. The senate concurred, ayes 33, nays 0.

The senate also concurred in the house amendments to S. B. 148 (Clark) amending the law in relation to the park police pension fund, ayes, 28, nays, 0.

ROCK ISLAND RAILROAD NOT LIABLE.

Des Moines, Iowa, May 15.—The Rock Island railroad committee is not liable for the injury of Miss Emma Johnson of Johnson county, which resulted when a brakeman in their employ delivered to her last summer a love message weighted with a signal torpedo. The Iowa supreme court so decided to day. From the court it appears that as Miss Johnson's home was near the railroad it became the brakeman's habit to throw personal notes from the train on which he was passing. One day he desired to send a message to the girl and a signal torpedo was the handiest weight he could find. A sister of Miss Johnson, carried the torpedo-weighted message to her, bubt in some manner she dropped it and was hurt by the explosion that followed.

McCUE'S STRING OF KNOCKOUTS UNBROKEN

Racine, Wis., May 15.—Matty McCue, Racine's sensational 124 pounder, continued his string of knockouts tonight when he disposed of Jeff O'Connell of Chicago in the first two minutes of fighting. McCue floored his man with a right cross for the count of nine and followed it up with five more knockdowns, the last one ending the scheduled ten round affair. This is McCue's tenth consecutive knockout.

DEBATE RIGHT OF GOVERNOR'S ACTION

Establishment of Military Zone in W. Virginia Subject of Discussion

FAILS TO COME TO A VOTE

Resolution Is Laid Aside Until After Question of Tariff Hearings Is Settled

LABOR LEADERS PRESENT

WASHINGTON, MAY 15.—The senate listened for an hour and a half today to a discussion of the right of West Virginia's governor to establish a military zone in his state to set up martial law there and to say that prisoners brought before the military tribunal created by him should be tried by it instead of in the civil courts.

Senator Kern's resolution for an investigation of conditions of the West Virginia coal fields which brought forth the argument, failed once more to come to a vote, Mr. Kern and Senator Goff, the leaders of the fight agreeing that it be laid aside temporary that debate on the question of tariff hearings might be continued and brought to an end as soon as possible. The resolution remains among the unfinished business before the senate and will come up automatically again at the next session.

Union Officials Present.

When consideration of the resolution was continued, "Mother" Jones and a company of West Virginia labor union officials occupied seats in the gallery and followed closely the argument made by Senator Goff, who engaged in a spirited argument with Senator Borah, author of the original resolution of inquiry into the West Virginia situation introduced at the last session.

The discussion concerned the authority of the governor of West Virginia to issue an order declaring martial law which closed the civil courts and substituted therefor the court martial.

Senator Goff maintained that this act was upheld by previous decisions of the supreme court of the United States and the supreme court of Pennsylvania.

Would Become Mexicanized.

"If in such cases," declared Senator Borah, "the governor of the states can close the doors of the courts and deny the right of trial by jury, when the courts are able to proceed with cases under their jurisdiction, and we the citizens of the United States are forced to sit idly by and see it proceed, we become Mexicanized in 48 hours."

"If there is a state of insurrection," Senator Goff replied, "the governor has the authority to put the whole state under martial law, with the commander-in-chief in control it by his own will. That is the law of war."

"But suppose there is no state of insurrection" Senator Borah replied, "and the governor declares there is? Under the contention made here we could not inquire into it."

"That is a violent presumption; no governor has ever taken such action up to this time."

Senator Borah replied that the very question under discussion was whether there is not a precedent in the West Virginia case and declared he did not concede that the governor had the right to close the courts.

"The governor does not close the courts," Senator Goff said, "it is the evident, absolute result of war that closes the courts."

The senator from Idaho, referring to the Mercer case, in which the military was used to escort prisoners to the civil court maintained that the martial law in such cases could police the situation and maintain order but could go no further.

"There is not any power in this government," Senator Borah said, "to supplant the civil courts with military law."

NATIONAL CONGRESS OF MOTHERS MEETS.

Boston, May 15.—Three hundred thousand babies a year is the sacrifice laid on the alta of parental ignorance, Mrs. Frederic Schoff of Philadelphia, president of the national congress of mothers and parent-teacher's associations said in her opening address at the seventeenth annual meeting of the congress which began to day.

Proper education of mothers and fathers would save more than sixty per cent of these infants, Mrs. Scoff estimated.

FAVORE GOVERNMENT OWNED RAILWAY

Washington, May 15.—Secretary of the Interior Lane today placed himself on record as favoring a railway system in Alaska, constructed, owned and operated by the government.

"Governmental ownership of railroads in Alaska," he said, "seems to me to be the one policy that will most certainly make for her lasting welfare."

WILL NOT CONSIDER ANY COMPROMISE

PRESIDENT STANDS BEHIND TARIFF BILL AS PASSED BY HOUSE

Wilson Champion of Free Sugar and Free Wool and Regards it as Duty of Every Democrat to Enact the House Bill Into Law.

WASHINGTON, MAY 15.—President Wilson came out strongly today as the champion of free wool and free sugar-in-three-years as provided for in the tariff bill recently passed by the house. He announced emphatically that he was not considering compromises of any sort; that he stood squarely behind the measure as it passed the house and that he regarded it as the duty of the Democratic majority in the senate to fulfill its platform pledge by enacting the house bill into law.

"I am not the kind," the president said, "that considers compromises when I once take my position. I have taken my stand with the house leaders for the present bill."

The president's utterance was made to a half hundred newspaper correspondents who gathered as usual today at the white house for the semi-weekly conference. At the same time the senate was engaged in protracted debate, at the end of which tonight an agreement was reached to vote tomorrow on the questin of public hearings on the tariff bill.

Mr. Wilson is understood to regard the effort to obtain hearings as a filibustering device.

Will Vote This Afternoon.

The agreement in the senate was for a vote on the motion to refer the Underwood bill to the finance committee and the Penrose-LaFollette amendment for public hearings at 4 o'clock tomorrow afternoon. Republican leaders accepted this proposal from Chairman Simmons after Senator Stone had attempted to force an immediate vote by moving to lay all amendments to the Simmons motion on the table. This he withdrew at Senator Simmons' request.

The sugar schedule was again the subject of enlivened debate, Senator Ransdell of Louisiana answering the claim of Senator James of Kentucky that the Democratic platform warned Louisiana to expect free sugar. Mr. Ransdell submitted records in an effort to show that the party was not committed to free sugar.

The senate resumed consideration of the tariff late in the day. Senator Thomas of Colorado discussed threats of business depression if the Underwood bill became a law.

"No panic in the history of this country was ever caused by an attempt to revise the tariff," he said.

Declares Panic Manufactured.

He aroused the Republican side by reading a magazine article which alleged that the panic of 1893 was manufactured by banking interests which desired the repeal of the Sherman silver purchase act. According to this article circulars were sent out from New York to banks demanding that they retire a part of their circulation and call a large part of their loans, with the object of forcing congress to pass this legislation. Senators Norris, Boot, Page and Smoot doubted that such a circular had been sent.

Senator Lane came to the assistance of his Democratic colleague by stating that he knew a banker who had received such a communication. He refused to give his name.

As a result of this circular Senator Thomas said banks did retire circulation and did call many loans and laid the basis for the panic. He declared that the panic of 1907 had been manufactured by the Standard Oil company or allied interests to get through the Tennessee Coal and Iron "deal" and to embarrass the president of the United States.

Senator Ransdell resumed his argument against free sugar and concluded with a personal appeal to his colleague "in God's name not to vote for free sugar and put the Louisiana industry to death."

IOWA CITY AGAIN WINS RIFLE SHOOTING CHAMPIONSHIP

School Makes Record Score For Inter-Scholastic Shooting of 984 Out of Possible 1000.

Washington, May 15.—For the third consecutive year the Iowa City high school has gon the inter-scholastic national rifle shooting championship and the Astor cup which goes with it. By its victory this school made a record score for inter-scholastic shooting, the team's total being 984 out of a possible 1,000, which is four points better than the record made by the same school last year.

Deering high school of Portland, Maine won the second highest score, with 976 points; the Susquehanna, Pa., high, third with 968, the DeWitt Clinton high, New York city, fourth with 956. Nineteen schools competed.

CHIEF BADLY WOUNDED.

Fort Madison, Ia., May 15.—Chief of Police J. B. Watkins was slashed from ear to ear with a knife in the hands of an unidentified man, said to be a tramp, here this afternoon. The man was prostrate on the ground and the officer believing him intoxicated, attempted to lift him up. With an open pocket knife he received a vicious thrust in the throat, which barely missed his juglar vein. He was hurried to a hospital, where his condition is serious.

BAPTISTS REFUSE TO JOIN OTHER SECTS

MISSIONARY FROM CHINA MAKES UNDESIRABLE SUGGESTION

Delegates Denounce Idea of Joining With Other Protestant Sects in Building Up Inter-Denominational Mission Schools in China.

ST. LOUIS, MAY 15.—When A. Y. Napier, Baptist missionary from Yang Chow, China, in an address before the Southern Baptist convention today on how to make foreign missionary work more effective said it was desirable that the Baptists join the other Protestant sects in building up inter-denominational mission schools there were cries of "no, no," and 'sit down" from all over the audience.

Finding it impossible to continue his address, he took his seat while the several thousand delegates from all the southern states cried "we are Baptists," "We will not give up or compromise missions," and "You are getting out of the fold, brother."

Some of the leaders, especially among the laymen, later told Napier they were in favor of inter-denominational missionary work and some of the preachers representing the larger churches expressed privately a similar opinion, he afterwards said.

The opposition came from the rank and file of delegates from town and country churches, the liberals asserted after the close of the session.

Special attention was given to the subject of missionary work among the negroes of the southern states, and it was decided to build a theological seminary for the education of negro Baptist preachers, to be located in Louisville.

The laymen's movement was given a prominent place in the discussions, most of the addresses being in favor of lay church members paying a tithe of ten per cent of their income.

The woman's missionary union will elect officers tomorrow and it is understood the officers now serving will be re-elected. There are 244 delegates attending the union meeting out of a possible 360.

INSURGENTS PERFECT PERMANENT ORGANIZATION

Elect Officers at First National Meeting Held to Formulate Plans to Oust Present Officers of M. .W. A.

Springfield, Ill., May 15.—Six hundred insurgent Modern Woodmen of America perfected a permanent organization of their first national meeting to formulate plans to oust present officers of the society, here to day.

E. S. Smith, an attorney of Springfield, Ill., was chosen permanent chairman. John L. Sundean, an attorney of Minneapolis, Minn., who was expected to disrupt the meeting declined the position as permanent chairman following his nomination by M. S. Winthrop, an attorney of Minneapolis and member of the Minneapolis delegation. Following the refusal of Charles W. Lyon, of Des Moines, Iowa., to accept the position of permanent secretary of the convention, Harry F. Hooper of Tecumseh, Okla., was elected to that position by a vote of 406 to 215½ for J. I. Unison of Terre Haute, Ind.

The following were chosen by the delegates of the state they represent to act as members of the committee on resolutions.

Dr. N. D. Arnold, Fort Collins, Colo; Judge J. M. Cleary, Galena, Ill.; James D. Field, Elwood, Ind.; J. D. Dennison, Dubuque, Iowa; J. F. Peters, Oberlin, Kans.; H. W. Libby, Winona, Minn.; Robert A. Sloan, Kansas City, Mo.; Edgar Howard, Colfumbus, Neb.; Thomas Rhsell, Youngston, O.; and W. P. Cleeton, Pawnee, Okla.

FORCES THAT WILL WORK ROOTING OUT THE CAUSES OF WAR

Dr. Eliot Addresses Lake Mohonk Conference—Knox College Lad Wins Third Place in Oratorical Contest.

Mohonk Lake, N. Y., May 15.—Education and the gradual adoption of the judicial settlement of international disputes are among the forces that will work for the rooting out of the causes of war, declared Dr. Charles W. Eliot, president emeritus of Harvard university, in addressing the fourt hsession of the Lake Mohonk conference on international arbitration today. The reasons that might lead to international strife were discussed at length by Dr. Eliot.

The third Hague conference was discussed today, addresses made by Edwin D. Mead, director of the world peace foundation of Boston, and others.

Paul B. Blanchard, University of Michigan, won the first prize, $100, in the afternoon oratorical contest under the auspices of the Intercollegiate Peace association. He is a twin brother of last year's winner. C. Magruder, St. John's college, Baltimore, won second prize, and Vernon Welch, Knox college, Illinois, third prize.

EVIDENCE AGAINST CLAIRVOYANTS GIVEN

Operations of De Alvandros Alleged Leader, Presented to Grand Jury

LED DUAL EXISTENCE

Posed as Lawyer In Downtown Office and Also Operated Three Mystic Parlors

THE WHITE ENVELOPE FUND

CHICAGO, MAY 15.—Interesting evidence of the operations of Charles De Alvandros alleged leader of the vlairvoyant ring now under investigation was presented to the grand jury today.

According to States Attorney Hoyne, De Alvandros led a dual existence, posing as a lawyer and operating as a seer. As a lawyer he had an office down town; as a clairvoyant he is said to have maintained three mystic parlors in which he appeared disquised to those who had met him in his capacity as an attorney. As a lawyer he is alleged to have directed his victims to consult the seers in one of his parlors. If the client was an important one he is said to have disguised himself and appeared as the seer. Thus he was able to make suprising disclosures to his victims. Less important cases were handled by assistant necromancers.

"White Envelope Fund."

He is said to have acted as chairman of weekly meetings held by clairvoyants where the "white envelope fund" was contributed to for distribution to the detectives who protected their operations. At these meetings plans for handling dupes and profiting by their credulity were laid and rehearsed.

De Alvandros owed his leadership largely to his legal ability and usually handled court matters for members of the ring when they ran afoul the law owing to some failure of their protectors of the 'white envelope."

He is at large, and the police are searching for five other clairvoyants, namely: Jesse Gilhage, Frank S. Ryan, Eno Von Paulset, D. K. Ross, and "Prof." Salisbury. Ryan, alias Prof. Robert L. Milton, was reported arrested at Cleveland today, but the prisoner turned out to be another man. Ryan's brother, James, is in jail here and has furnished the state's attorney with a great deal of the evidence being used before the grand jury.

Gives Woman's Testimony.

Eight indictments are expected to be reported by the grand jury tomorrow, according to the state's attorney. The state's attorney related some of the testimony given by one woman victim of the clairvoyants.

"I went to one fortune teller," she said, "and gave him $1,200, which he said he would invest. Afterwards he closed his office and I could not find him. Then I went to another clairvoyant and he wanted $250 to get back the original $1,200. So I gave it to him and never saw him again. Then I went to a third and a fourth and gave them smaller sums, as my funds were nearly exhausted. They, too, disappeared and I complained to the police, but it did no good. None was ever arrested."

State's Attorney Hoyne declared that the men who are being investigated are kept under surveillance, and if any one attempts to leave the city he will be arrested.

"I have direct evidence of collusion between police officers and criminals; that is, direct connection without the aid of a go-between, and none of them will escape punishment," he said.

MORE SUFFRAGETTE BOMBS

London, May 15.—Several more suffragettes bombs were discovered tonight. One was found at the railway station at Aylesbury a short distance out of London. Another at a hotel at Brentwood and a third at the private chapel on the Duke of Buccluch's estate at Dalkeith, Scottland.

SETTLE LICENSE CASE.

Manager Friedman of Motordrome Company Pays Fee for Showing in South Jacksonville.

Thursday morning the case of the trustees of South Jacksonville against Manager Leon Friedman of the Motordrome Company, for conducting races in South Jacksonville without paying the license fee, was settled by Mr. Friedmann paying $20 for the first day, $10 for the second and the costs in the case.

Before the time for the trial, Mr. Friedman and the officers of the driving club met, the manager being of the opinion that according to the terms of the contract the Driving Club should pay the license fee. The contract was reviewed and the matter was left to an attorney who decided in favor of the Driving Club, Mr. Friedman being obligded to pay the license fee and the costs in the case, which aggregated $33.

MISS VERA TOMLIN WINS FIRST HONORS

Wesley Mathers Contest in Public Speaking Held at Woman's College—Miss Shirding in Second Place.

The Wesley Mathers contest in Public speaking was held at the Woman's college last night, before a fair sized audience. First honors were won by Miss Vera Tomlin and second honors went to Miss Nance Shirding. The young ladies had been trained by Miss Amanda Kidder, head of the School of Expression, and all did so well that the contest was a close one. The judges were Hon. George H. Wilson of Quincy; Prof. A. M. Santee of Virginia and Principal W. A. Gore of this city. The first prize was for $17 and second prize $8.

The following was the program:

"The Coward", Edward Cummings—Nance Shirding, Petersburg.

"The Flight of Emily", Charles Dickens—Ida Pierig, Kansas City.

"The Shaclales Unbreakable"—J. V. lDes Voignes—Helen Moore, Raymond.

"Monsieur Beaucaire", Booth Tarkington—Frances Frazee, Rushville, Ind.

"Louisana", F. H. Burnett—Vera Tomlin, Browning, Mb.

"Chapter from Adam Bede", Geo. Eliot—Ara Large, Owaneco.

CHILD WELFARE CONFERENCE

Boston, Mass., May 15.—From every section of the country men and women having a common interest in the mental, moral and physical training of the youth of the land assembled in Boston today to participate in the seventeenth child-welfare conference of the National Congress of Mothers and Parent-Teachers' associations. A meeting of national officers and managers inaugurated the program this morning. The formal opening of the conference takes place tonight and tomorrow morning the business sessions will begin and continue for six days.

Among the prominent men and women who will address the conference are Miss Julia Lathrop, chief of the federal children's bureau; Dr. P. P. Claxton, united commissioner of education; Dr. G. Stanley Hall, president of Clark university; Joseph Lee, president of the Playgrounds Association of America; Mrs. Mary S. Woolman, president of the Woman's Industrial and Educational union; F. W. Matthiews, of Plainfield, N. J., secretary of the boy scouts' library department, and Mrs. Frederic Schoff, president of the National Congress of Mothers.

The newer styles in straw hats are shown by Garland & Co.

TO START REVIVAL AT BEREA CHRISTIAN CHURCH.

Meetings Will be in Charge of Rev. E. W. Allen of Decatur.

A revival meeting which will last at least two weeks will begin at the Berea Christian church Sunday, May 25, under the leadership of Rev. E. W. Allen of the First Christian church of Decatur. He is a well known pastor of that denomination and the people of Berea are expecting great results from his efforts.

On the first day of the revival Rev. Mr. Allen will show a number of curios from the Holy Land, which he visited. Among them will be a barley loaf baked in Jerico from Jacob's pottage; husks, like the prodigal son is said to have eaten. W. W. Robertson received word yesterday from the pastor that he had made all arrangements to commence the meetings at the time stated above.

G. A. R. RATES TO ALTON.

Members of Matt Starr post G. A. R. very much regret that they have been unable to get a special rate to Alton for the G. A. R. state encampment. The regular fare to Alton and return is about $3 from Jacksonville, but in a number of other cities very low rates are offered. In Springfield the C., P. & St. L. is advertising a rate of fifty cents to Alton and return.

SCHOOL BOUNDARY CASES HEARD BY COUNTY SUPERINTENDENTS

Decision of Trustees That Certain Districts Shall Remain Undisturbed Upheld by Action of Messrs. Montgomery and Moore.

Two cases of school district boundaries came before County Superintendent H. C. Montgomery of Morgan county and Supt. J. C. Moore of Scott county at a conference held Thursday in the office of Mr. Montgomery. The hearing of the cases occupied the greater part of the day.

Some time since Wiley and A. H. Todd petitioned the trustees of the Point school district for authority to disconnect a body of land and add the same to the Lynnville school district, that is making the school taxes payable to the latter district. The trustees after hearing the case denied the petition. The matter then was appealed by the Messrs. Todd to the county superintendents as one of the districts involved touches both counties. The decision of the superintendents upheld the action of the trustees.

Trustees of Sycamore and Meredosia districts of this county and Hopedale and Bluffs districts of Scott county were petitioned to give up part of their territory for the formation of a new district on the ground that the children of some of the families were too far from school advantages. The trustees decided that the changes asked for in boundaries would materially weaken all of the districts in a financial way and so denied the petition. The county superintendents yesterday after listening to the evidence and studying the boundary lines, decided that the trustees were right in refusing the petition. At the hearing J. A. and Walter Bellatti appeared for the petitioners and Judge Funk of Winchester for the school officers who denied the petition.

Clothing shown by Garland & Co. wil lappeal to the smart dresser.

INSTALLING LARGE CLOCK.

Just above the door in front of the Jacksonville National Bank, the officers of that institution are having installed a large clock, the dials of which can be seen at quite a distance, and when completed will be quite convenient to the public.

The clock has two large dials, facing the east and west, which are 30 inches in diameter and can be seen from quite a distance. The timepiece will strike the quarter, half and hours and the name of the bank will be displayed on top. At night the dials wil be illumniated with electric lights. The timepece is made by the McClintock-Loomis Company of Minneapolis, Minn... and is being set up by E. E. McClintock of that firm.

INSPECTING WORKING CONDITIONS OF WOMEN.

Miss Ethel E. Hanks of Chicago, a member of the Illinois State Board of Factory inspectors, was in the city Wednesday and Thursday, looking up data relative to the work of the board. There are only two women members of the board. She was noting especially condition of girls in stores and factories, to see that none were violating the ten hour law. Sanitary conditions were also part of her inspection. The board is making a thorough canvas of all cities of the state and the result of the work is reported to headquarters.

PICNIC IN WOODS.

Thursday was the last day of school at Murrayville and all the students enjoyed an outing in the woods belonging to C. Justus Wright. The students, together with the teachers, J. H. Dial, Miss Mabel Hart, and Miss Louise Mansfield, took well filled baskets and it is needless to say that the good things to eat were greatly enjoyed. The afternoon was spent in a happy manner.

PANAMA AND THE GREAT CANAL

Anyone who is interested in the country of Panama or in the wonderful canal is invited to come to the public library on Saturday night, May 17th, at 8 oclock. Dr. Arthur Black of Chicago will talk about his recent trip to that country.

Any of the following books upon Panama may be reserved without charge:

Edwards—The canal, country and people. 1912. Lively, journalistic account of lasting interesting beaccount of its history of colonization, piracy, early travel on the isthmus and history of the canal enterprise. Gives a vivid history of Americanization and of the success of the Panama canal commission.

Barrett—What it is and what it means. 1913. Contains in compact form, a good deal of information, a large number of good illustrations showing mainly the various stages of work on the canal, a good colored map of the canal zone; and another showing main water transportation lines via the canal.

Perper—Panama to Patagonia: 1906. Interesting description with a study of industrial and political conditions, and the advantages to this country of South American trade through the canal.

You must see the big assortment of soft shirts and tub neckwear shown by Garland & Co.

TRUST DEED SHOWS BIG DEAL

From the copies of a trust deed placed on record Thursday in the office of E. D. Pyatt, recorder, one is able to get some idea of the magnitude of the project which the Central Illinois Public Service corporation has undertaken in gaining control of a large number of electric light properties in this state. The trust deed in question mentions as a consideration $1,000,000 and conveys a lien on electric properties in the following counties: Jersey, Sangamon, Edgar, Coles, Lawrence, Pike, Mason, Douglas, Richland, Crawford, Christian, Schuyler, Greene, Hancock, Morgan, Brown, Shelby, Warren, Union, Montgomery, Adams, Williamson, Macon, Fulton, Scott, Salina and Jackson. When it is remembered that the Central Illinois company is but one of three or more corporations now gaining control of utilities in Illinois it is apparent how vast is the business involved.

NO MILITARY DEMONSTRATION DURING JAP NEGOTIATIONS

President Seeks to Prevent Any Alarming Interpretation of Ordinary Manuevers of Army or Navy.

Washington, May 15.—President Wilson has determined that no war supplies or troops shall be moved, or anything resembling a military or naval demonstration carried on by the United States, while diplomatic negotiations with Japanese over the California alien land legislation are in progress so that no alarming interpretation can be placed on even the ordinary manuevers of the army and navy.

This decision of the president was announced at the white house tonight. It answered a report current in official circles late in the day that precautionary movements by the army and navy were contemplated and had been discussed at a conference between the president, Secretary Daniels of the navy department, Secretary Garrison of the war department and Acting Secretary Moore of the state department. The rumor which called forth the statement probably began its rounds when the war department made public earlier in the day orders to three officers and two companies of coast artillery to sail from San Francisco for Honolulu about May 24. These orders it was explained were in conformity with the program for the creation of a permanent and sufficient garrison in Hawaii outlined in the last annual report of the secretary of war and merely carried out plans of long standing.

POULTRY CULTURE.

The Poultryman's Preparation—Knowledge is Power.

There is great advantage in systematic and properly directed study of poultry keeping even for one who has had some experience in the business. A beginner in poultry culture and the wise poultryman seek to supplement this foundation knowledge by continual earnestsearching for valuable facts bearing upon his calling. He makes it a life study.

The best starter for business life is a faithful course in the foundation studies of the common school. If the poultryman has the future advantages of higher education it should prove helpful.

Biology—Some knowledge of the naural sciences and especially of biology is certainly desirable. The poultryman deals with living animals. The more he learns of their origin, history, classification and development, of their organs and the functions of the same, of their growth, their conditions in health, of the causes and symptoms of the disorders and diseases which assail them, and all that relates to their correct management, the better will be his understanding of the fowls which are the basis of his business.

If he has gained some knowledge of surveying, mechanical drawing and carpentering it will be useful in locating and constructing the poultry plant.

Chemistry—A course in chemistry will prepare him for intelligent studying of poultry foods and feeding rations.

To become a thorough going poultryman some knowledge of the different kinds of breeds of fowls is required.

Breeding.—To properly mate and breed the birds for either profit or pleasure calls for insight into the principles of breeding and their application to poultry culture.

Incubation and Brooding—To hatch and rear the chickens successfully requires some knowledge of natural or artificial incubation and brooding. The poultryman should learn all he can of principles of heating and ventilation.

To secure abundant eggs or flesh production requires earnest consideration of the underlying principles of nutrition and growth and a critical study of the effects of various foods, shelter, exercise and all the conditions surronding the fowls.

Fitting for Market—Caponizing, fatteng, killing, dressing and marketing the fowls should be well mastered. Finally, the poultryman should learn to keep accurate records and accounts.

Right Foundation—We do not wish to intimate that a person can not "keep hens" if he or she lacks much of what has been mentioned as a proper preparation of the poultryman for his calling. It is a fact, however, that a general education, supplemented if possible by a higher education, will help lay the foundation right. Whatever the previous education or experience of the prospective poultryman, a special course of instruction in poultry culture will very effectively aid him to obtain that essential knowledge of this particular business which he must have in order to succeed in his chosen calling. Experience will serve to rivet the facts already learned. After gaining knowledge earnest work in applying the same will insure desirable results. Skill will come by practice.

Life Study—The poultry student should determine upon a life course in poultry study, utilizing as fully as possible the results of the experience of others as well as the wisdom gained in his own practice and continuing alert to learn any new facts which will advance his interests as a poultryman—H. A. McKeene, secretary, Illinois Farmrs' Institute.

PRESENTED WITH CANE.

Capt. J. W. Waller was agreably surprised and at the same time much gratified when he was presented with a walking cane by his friend, John Roberts, who was a member of Co. D, 91 st Ill. Infantry and of which Capt. Waller was for some months the commanding officer. Mr. Roberts is a member of the Soldiers' and Sailors' Home in Quincy and came to Jacksonville to spend a few days visiting his brother and other friends. The cane which Mr. Roberts made for a present to the captain is unique in that it is made of the horns of cattle, the hundreds of pieces being prettily put together.

SCOTT'S THEATER FRIDAY, May 16

A Vitagraph Two Reel Special

Society Drama, "The Web"

The Spider-Like Adventuress is Outwitted by the Man whom She Tries to Entangle in her Web.

A Masterpiece in Motion Pictures—A Stupendous Production of Two Thousand Feet.

Characterized by grandeur, perfect interpretation and correctness. No expense has been spared in making this one of the most perfect and interesting pictures. Tho power of woman's art and man's susceptibility to her charms, it entwines us in its grasp.

An adventuress traps a man and his younger brother, but both succeed in disentangling themselves from her web. In doing so, however, there are complications that involve a number of people, some unscrupulous and some otherwise. The understandable manner in which a rather involved plot is handled is a testimonial to the ability of Vitagraph producers.

The best trade critics say it is the strongest and most elaborate feature ever produced. That is why you want to see it.

SUFFERED INJURED KNEE.

W. A. Furr, superintendent of schools, is suffering from an injured knee, which he received when attempting to stop a fractious horse recently. A horse driven by Miss Georgia Fairbank became frightened when the Shepard team ran into a telephone pole on Grove street, and started to run. Mr. Furr rushed out and caught the horse's head, when the Sheppard team ran into a threw him to the pavement, injuring his knee. Although the injury is quite painful Mr. Furr is still able to conduct his school duties.

BROUGHT TO COUNTY JAIL.

Gave Him A New Stomach

"There are thousands of sufferers from stomach and liver troubles whom I wish I could meet and tell what Chamberlain's Stomach and Liver Tablets would do for them," writes H. M. Youngpeters, editor of the Sun, Lake View, Ohio. "One bottle of the tablets would end the trouble for most of them. I suffered intensely after eating and never felt well, and no treatment or medicine I tried ever seemed to do me any good until reading an advertisement for Chamberlain's Tablets in my own paper, I tried a bottle. The first few doses gave me surprising relief, and the second bottle seemed to give me a new stomach and perfect good health. I didn't think anything would give me such a complete cure. They are wonderful."

LETTER FROM INDIA.

(By Melville Kennedy.)

Thursday.

Nothing especial has happened this week that I have been connected with, the Slack has been gone all week at the All - India conference, held at Serampur, a few miles out of Calcutta. I went out yesterday to see the group of students and am glad I went. It was a unique gathering, 250 students from all parts of India. It was held in the college compound built by Dr. Carey and I saw the house where that pioneer missionary lived. It is a beautiful spot on the river.

We have seen a number of the secretaries this week, who are gathered here for the Puri conference and for the student conference just held. Sunday night we went to the Y. M. C. A. for music after dinner. The secretary from Ceylon, a Canadian, a McGill man, has one of the finest tenor voices I've heard in a long time.

Cannot write more now for it is already 6 p. m. and we must get off by 8 p. m. on the way to Puri, for the conference.

Wednesday.

My note to you last week was posted by a fraction of a second, almost, for we put it on the post office on the way to the train as we sped by in an automobile.

We were in Puri from Friday to Monday night and on the whole had a good time. The trip down was hard, traveling in the night. Arriving at Puri we had a pleasant enough room in the queer hotel but the cooking was poor. The heat at mid-day was very marked, the sun and the sand conspiring to make a pretty warm effect, but the mornings and evenings were fine. The sea looked just as it does at Coney Island.

It was the busiest conference I have attended for a long while. We kept at it day after day for long sessions. Mr. Mott's presence made a full program desirable and all the secretaries were present. It was most instructive and interesting to us who are new. The Indian secretaries make a larger proportion every year. Some of them are very keen men and men of beautiful simplicity of spirit. The Y. M. C. A. is doing a fine work in developing the Indian Christian leadership, probably more than any other organization. We enjoyed the fellowship very much and we saw and heard Mr. Mott more intimately and in smaller groups than ever before. He is a very remarkable man and wonderful in his grasp of great problems and in the power of leadership which he possesses and uses.

Sunday.

We have been sitting here in the Slack's drawing room reading the mail. It is now nearly tiffin time (2:30). This is always the delightful part of Sunday, the quiet time between 11 and 2:30 when Bobby is asleep and we have the home mail before us.

On Sunday mornings we go walking together in the Eden gardens from 8 to 9:00 or 9:30. On other mornings I am engaged with the Pundit at that time. The gardens are very fresh and beautiful in the early morning.

The past few days have been occupied with our goods—getting them delivered, unpacked, etc. For preservation in the wet season things have to be stored in tin lined boxes, so I am unpacking everything having an Indian reline the boxes with tin, and then repacking. Our books we will leave with the Slack's, stored in closed book cases. Where we go in the country everything is furnished except linen, so we need very little of our own goods until we settle down permanently in Calcutta. The coming week will be full, finishing up this work, getting clothes, and doing up odds and ends of buying, etc.

I have had one dozen shirts made to order, white twill, and have ordered one dozen white duck trousers, besides two suits of silk. Doesn't that sound extravagant. But you see in the hot season men have to change garments every day and as the dhobis are often very slow in returning the laundry, one needs many articles of wear. The silk stuff is very light and is for good wear in the hot season. The every day costume is duck pants and alpaca coat. My shirts cost 66c each, made to order. One silk suit was made at a good tailor's and cost $11.00; the other will be a copy made by a native tailor and will cost $7.00 or $8.00.

When it gets real hot I shall probably want to adopt the native Indian costume which is adapted to the climate. A man wears a "dhuti" for the nether garment—a long loose piece of very light material, not much heavier than cheese cloth, which is fastened about the waist and falls partially and loosely over the limbs, leaving them free for all the wind that blows. Coolies wear nothing more but students and better classes wear our shirts, loose and flowing, with a shoulder cloth in cool weather, a long beautifully colored cloth thrown over one shoulder and under the other.

It is a grotesque sight to us at first to see a gentleman, well dressed—coming along with a stiff white or negligee shirt on, with no collar and the tails playing in the breeze. It is cool, that's the point you see, and he had no trousers to tuck the tails into anyway. The better dressed men affect socks with slippers, or sometimes our Oxford shoes. In fact a Bengali gentleman completely dressed looks to us like a man who had forgotten to put his trousers on and had left his collar off.

Father asked about the seasons here. The present cool season beginning early in November will soon begin to wane. It grows gradually warmer after the end of January. By the end of March it is hot but increases until monsoons break in early June. May is the hottest month. The rains continue until September, then it gradually dries up through September and October ushuring in the cool season in November. Myra and Bobby will go to the mountains about the middle of April probably and stay through October, fully six months you see. Don't know how much time I shall spend up there—depends on how I like the heat and on language conditions.

When we get to the country I hope there will be more time for letters. We are looking forward to the more quiet, settled life there.

Love from us all, Melville.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. BROOKLYN BRIEFS.

Sunday promises to equal the good work of the past several weeks at Brooklyn church. The boys vested choir will be out in full force and give several numbers at both services. The regular chorus will also give several numbers, and at night Mr. Albert Strausser will read a special number. Many new friends have arisen to boost Brooklyn and the church has taken a new life to a surprising degree. Last Sunday night all the seats were taken and arrangements are being made to accomodate the large crowds. Rev. and Mrs. Alkire have been recent recipents of many good things on the part of the church and its friends and they are very grateful for such kindly remembrances.

Mrs. W. P. Bates of White Hall was a Wednesday guest at Brooklyn parsonage.

The Epworth league held its annual election of officers Tuesday night, after which an old fashioned camp-fire was enjoyed on the lawn. Refreshments were indulged in and the merry-makers held sway until a late hour.

STONE CASKET FOUND IN CLAREMORE INDIAN MOUND.

Prof. Rogers Makes Slow Progress, But Expects to Announce Important Discoveries Soon.

Prof. H. Emerson Rogers, the scientist who has been delving into the mysteries of the Claremore mound, near Claremore, Okla., for some time, has unearthed a stone casket, located in what the professor says is the main entrance of the mound. The casket is about 10 feet in length, and is perfectly square, except the ends, which are beveled.

At first it was thought to be a huge granite boulder, but after investigation shows it to be hollow, and hermatically sealed. The casket will in all probability weigh anywhere from a ton to two tons. The professor will undoubtedly experience some difficulty in getting into it on account of the crystaline composition of the stone. He is using extraordinary precautions, as he believes that somewhere on the surface of this great casket, hidden by dirt and a peculiar kind of rust, is an inscription which will shed light on his work.

It was reported that he intended to blow it open with dynamite, but the professor, upon being questioned, dispelled this idea. He said he was in no particular hurry about opening the casket, and that he would search every inch of the surface before trying to effect an entrance. On account of the great weight it is thought that this casket was used as a vault to store valuable treasure; but the professor thinks this very unlikely, owing to the position in which it was found. However, he says he will make known the contents of this casket in a very short time.

The work at the mound is progressing slowly on account of the many obstacles the exploring party come into contact with, which must be examined to the minutest detail.

"We must not allow ourselves to get in a hurry," says Prof. Rogers. "No matter how great our enthusiasm, I have learned to go slow and investigate, lest we overlook something of great value, something that might be the key to the situation. Many scientists have made the great mistake of rushing through their work. It does not pay in the end."

The professor says that he has observed many indications of oil and gas, and has no hesitancy in predicting that some time this will be a great oil and gas field. He says that he attaches more real importance to the existence from the fact that this place was at one time the seat of a great tribal government, and that all the intertribal councils were held here.

"This place at one time—away back ages and ages ago, was considered a sacred spot," he declares. "There are many sufficient reasons for it—reasons that I have only recently discovered, and which I shall be able to put before the scientific world in a few days—unless I meet with the disappointment of my life. When I make my discoveries public I will meet with criticism—I know it, but thanks to my untiring efforts and peculiar advantages. I shall be ready with ample proof to sustain any and all claims I make; and I shall be there with 'the missing link.' There are things I shall bring to light that at first will be laughed at—especially by some of the so-called scientists who have never done anything but sit up nights and read what some other fellow has to say in connection with so and so. I know these fellows; the world is full of them."

TO ATTEND STATE CONFERENCE.

Clarence L. DePew left last evening for Chicago to be present at the meeting of the state and national field workers of the International Association of Sunday Schools. One object of the meeting is to formulate plans for the field work which it is desired to accomplish during the coming summer and fall seasons.

That Corn Is a Sure 'Goner,' Now

"Never Could Do This Before. "GETS-IT" Made Every Corn Vanish Like Magic."

every corn, every time, as sure as the sun rises. It takes about 2 seconds to apply it. Corn pains stop, you forget the corn, the corn shrivels up, and it's gone! Ever try anything like that? You never did. There's no more fussing with plasters that press on the corn, no more salves that take off the surrounding flesh, no more bandages. No more knives, files or razors that make corns grow, and cause danger of blood poison. "GETS-IT" is equally harmless to healthy or irritated flesh. It "gets" every corn, wart, callus and bunion you've got.

"GETS-IT" is sold at all druggists' at 25 cents a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago.

Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten it.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of child-birth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded, joyful anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up to veneration; they are rated as cunning plotters to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

There are thousands of women who have used Mother's Friend, and thus know from experience that it is one of our greatest contributions to healthy, happy motherhood. It is sold by all druggists at $1.00 per bottle, and is especially recommended as a preventive of caking breasts and all other such distresses.

Write to Bradfield Regulator Co., 131 Lamar Bldg., Atlanta, Ga., for their very valuable book to expectant mothers. Get a bottle of Mother's Friend to-day.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

Cubs Lose Chance In Tenth When With Bases Full Archer Flies Out and Overall Fans

PHILADELPHIA, MAY 15.—Batting rallies in the ninth and tenth innings enabled Philadelphia to defeat Chicago today by 6 to 5. The visitors drove Alexander off the mound in the sixth inning, wonderful one-hand catches by Magee and Cravath in earlier innings saving several runs. Eppa Rixey and Brennan were taken out to permit pinch batsmen to hit for them.

Seaton twirled the tenth inning, when, with one out, Saier tripled. Schulte and Bridwell were given passes, filling the bases, but Archer flied to Knabe and Overall fanned. Philadelphia tied the score in the ninth on Killifer's single, Walsh's double, Capron running for the latter, Pasket's sacrifice and Knabe's single.

In the tenth with one out, Luderus singled and reached third on Dodge's single and Clymer's fumble. Howley ran for Luderus after the latter reached third. The squeeze play worked, Howley scoring on Killifer's bunt to Overall. The score:

TEACHERS AND THE COST OF LIVING.

Most of the teachers in the United States have in effect had their salaries reduced since 1897. Despite an apparent increase in money received, the high cost of living has cut into their salaries just as definitely as if a school board had sliced them. A teaching position which paid $600 salary in 1897 is paying in purchasing power the equivalent of about $416 today, if measured by 1897 prices; the teacher on the $1,000 salary gets no more for his money today than he would have produced fifteen years ago for $693. This is what the high cost of living has done to teachers and others on a fixed salary schedule, according to a report on teachers' salaries and cost of living distributed by the United States bureau of education.

Dr. Robert C. Brooks, executive secretary for the N. E. A. committee, which prepared the report, shows by bureau and labor figures that wholesale prices in 1911 were 44.1 per cent higher than in 1907; that retail prices had increased 50.2 per cent in the same period; while in June, 1912, retail prices were 61.7 per cent higher than in 1896. With these figures as a basis he analyzes teachers' salaries in five cities in different parts of the United States and demonstrates the light of the teachers in the problem of increased cost of living.

According to Brooks' report, teachers do not receive enough salary, even in the cities to avem oney to carry adequate insurance or to proceed with further professional training. Out of 1,600 teachers investigated, only 13 were found who possessed property over $15,000, and practically everyone of these 13 owed their good fortune to sources other than their salaries of teachers. Nearly all of the men teachers carried life insurance, but few of them to a sufficient amount. Only four out of 138 married teachers would, if they were to die now leave an insurance or any other property as much as ten times their annual salary—the lowest sum that might be expected to provide for a family.

How the high cost of living affects particularly the teacher who seeks to marry and have a home in strikingly demonstrated. In Denver, a city of relatively high salaries, 14 married women with no others dependant upon them had an average salary of $1,212 to meet their own needs exclusively; 16 unmarried women with others dependent upon them had an average from salary of $801 to spend on each adult person in the family including themselves: but the married men teachers had an average from salary of only $413 for the equivalent of each adult person including themselves.

Teachers spend more than workingmen for some things, though their pay is about the same. Rent and clothing are bigger items in the taeacher's budget than in the laborer's, indicating more exacting community demands. Teachers also spend relatively more than workingmen for life insurance, religious purposes, charity, amusement, vacations and care of health. They spend less for children's clothing—having fewer children. Not all of them economize in this way, however. "I believe," writes a Denver principal, that teachers should attend concerts and good plays and take trips. So does my wife, but my salary necessitates a choice between these things and raising a family. We chose the latter."

Many other significant side lights on the high cost of living, particularly as it affects teachers, are brought out in the report on "Teachers' Salaries and Cost of Living." The commissioner of education at Washington has a limited number of copies of the report for free distribution.

DANGER FROM GRIPPE

Lies in That Cough and Weak, Worn Out Condition.

Grippe, pleurisy, pneumonia, these are greatly to be feared at this time of the year.

To prevent grippe from being followed by either pleurisy or pneumonia, it is important to drive the last traces of it out of the system quickly.

Our advice is to take Vinol, our delicious cod liver and iron preparation without oil, and get your strength and vitality back quickly.

Mrs. A. A. Crabill of Strasburg, Va., says: "Grippe left me weak, rundown and with a severe cough, from which I suffered four years. I tried different remedies, but nothing seemed to do me any good until I took Vinol, from which I received great benefit. My cough is almost entirely gone and I am strong and well again, and I am glad to recommend Vinol to others who suffer as I did."

Try Vinol with the certainty that if it does not benefit you we will give back your money. Lee P. Allcott, druggist, Jacksonville, Ill.

SPRINGFIELD PRESBYTERY.

The meeting of the presbytery of Springfield at Lincoln Wednesday was principally for the purpose of acting on the call from the First Presbyterian church of Lincoln for the services of Rev. Melvin R. Laird. The call was accepted by Rev. Mr. Laird and it was arranged that he be installed at 7:0 o'clock in the evening. The moderator, Rev. A. G. Bergen of Decatur, presided and propounded the questions; Rev. George T. Gunter, pastor of Second Presbyterian church of Springfield preached the sermon; Rev. E. L. Lord of Mason City gave the charge to the pastor, and Rev. John J. Wilson of Virginia the charge to the people. The new pastor was established under very promising auspices.

Arrangements were also made for the installation of Rev. J. F. Rogers as pastor of the church at Winchester. Rev. A. B. Morey and Rev. W. E. Spoonts of this city being the committee to represent the presbytery in this service.

The presbytery adjourned to meet in the Second Presbyterian church of Springfield, July 21.

ON THE SIDELINES.

Decatur is in financial straights. The attendance is miserable according to the newspapers and unless the fans turn out in larger numbers the best and highest salaried men will be sold. Among them are Duggan, Flanagan, Blitz, Schorer and Lakaff. And Decatur is leading the league too. Danville is also below par in the matter of attendance, but there is some excuse, as the Vets are at the bottom of the ladder and playing ordinary ball.

* * *

Lincoln college lost a game to the Lincoln team of the I.-M. league by the lopsided score of 11 to 1 Tuesday. Among the familiar names in the line up of the leaguers is that of Frank Dang, once with Quincy in the Central association.

* * *

Bloomington is a winner with Bluejacket on the slab. The Indian is the Walter Johnson of the Three Eye.

* * *

Fred Kommers loomed up like a colossus with those two home runs at the expense of Gregg. The Senatorial bunch has recovered it's batting eye as eleven hits in Thursday's game indicates.

* * *

This fellow Delave seems to be a versatile genius. Pitches crack ball one day and plays a spanking game at short the next. In between he hits like a Lajoie and runs the bases a la Clyde Milan.

* * *

Waterloo is to follow Decatur's example and have a carnival all next week for the benefit of the ball team. Wortham & Allen will furnish the attractions, which is saying that Waterloo will have the best carnival company in the business.

* * *

Mathewson is pitching the game of his life and but for him the Giants would scarcely be in the running. He has finished forty-seven innings without giving a base on balls and has issued but two passes all eason.

* * *

Jack Herbert's team beat the Peoria Puffs Sunday 20 to 3. With the bases full in the ninth Manager Herbert imitated the mighty Casey and struck out.

* * *

The Eagles will play at New Berlin Sunday. The same line up that was used in the game with Franklin last week will be in the field for the locals. It is going to be a good game. A large number of local fans expect to attend.

* * *

Ed. Fleming is one of the umpires in the Central association. He isn't any too well liked in Monmouth. The papers there charge him with being responsible for the loss of one of their games with Waterloo.

* * *

Pittsburgh seems to have recovered entirely from it's bad slump. Honus Wagner played like the Wagner of old. Sounds natural to read of him kocking out home runs and playing short stop as only he can play it.

* * *

McGraw is using Thorpe as a pinch hitter. Without any startling results as yet.

* * *

Miller seems to be plugging that hole at first for the Pirates. This has been a weak spot in the Pittsburgh defense for years.

* * *

It seems that Bill Guthrie was let out of the league to make room for O'Day. Bob Emslie also got back in the ranks when Owens was fired for frequenting gambling houses.

* * *

Another old timer is to pass from the scene. McGraw has asked for waivers on "Doc" Crandall. For years Crandall has been looked upon as one of the mainstays of the Giants staff, being used as a game saver and pinch hitter. He shone in those roles. But there seems no place for him now and he has to go. Maybe some of the teams will refuse to waive.

* * *

At last John Evers record of using seventeen men in a game has been shattered. Charlie Dooin turned the trick with just eighteen men, enough to make up two full sized teams. By winning this game the Quakers hang on to the lead, but only by the skin of their teeth. A single slip with the Cubs will bring the Superbas right up with them.

* * *

Overall seems to be regaining his old time form. A few more games like that of yesterday and he can be depended upon to take something from the other fellows besides a beating. The Cubs handed it to Alexander in big league style. It was tough to have to lose that game after having apparently won it. Archer missed the chance of a life time to win the game in the tenth. Bet he feels it pretty bad.

* * *

Seaton is proving one of the best men in the game. Dooin is working him steadily and that appears to be just what he needs.

* * *

The Phillies' short stop is aptly named Dodge. Not so bad as one who once played in the Southern league under the cognomen of Buttermore. Even that might have been worse. Butterfingers, for instance.

* * *

12,000 people at a week day game is a pretty good crowd. That number turned out at St. Louis Wednesday to see Walter Johnson make the world's record for consecutive scoreless innings.

* * *

The stars are striking their proper strides. In addition to Hans Wagner, Ty Cobb has picked up in his work and is doing something to show for the $15,000 salary he is supposed to draw for his valued services.

* * *

Cy Falkenburg continues to pitch winning ball. Cleveland is now regarded seriously by the easterners who at first were inclined to hold them rather cheap. Gregg is also holding up his end and Turner is playing such a good game at second that Lajoie is not seriously missed. But of course when Larry returns to the game the Naps will be that much stronger.

* * *

Jack O'Connor's team is a bad last in the Federal league race. Chicago is at the top, having lost but a single game.

Miss Florence Blackburn has returned from Beardstown, where she has been attending the state Sunday school convention at a delegate from Ebenezer Sunday school. Miss Blackburn reports a royal reception and entertainment and a very enthusiastic and helpful convention.

WOMAN'S COLLEGE ALUMNAE AT LOS ANGELES.

Los Angeles Times: There was a notable meeting the other day at Hotel Bryson when some forty of 100 members of the Los Angeles branch of the alumnae of the Illinois Woman's College met in annual session. To be present at this gathering, Mrs. Edward C. Lambert journeyed all the way from her home in Jacksonville, Ill., where the college is located. She is president of the Alumnae Association, which numbers some 800 members, scattered all over the United States, the Los Angeles branch being one of the largest and, in many ways the most notable. It includes in its membership one of the two living members of the first graduating class of 1852—Mrs. J. Warren Johnson, who is a cousin of the president of the Los Angeles organization, Mrs. Hugh Harrison.

Another rather remarkable feature of this local branch is that the president, Mrs. Harrison, is a descendant of Rev. Peter Cartwright, the president of the first board of trustees of Illinois College—a fact referred to by Mrs. Lambert in her address befero the organization. Mrs. Lambert is a daughter of Dr. W. F. Short, for eighteen years president of the Illinois College, and a woman of prominence in her native state and in educational circles generally. She was sent as a delegate from Illinois to the Biennial Federation of Women's Clubs when it met in Los Angeles and has refused the presidency of her State Federation of Clubs, preferring to devote her time to college interests. Just now Mrs. Lambert is making a circuit of the various alumnae branches in the interests of an endowment fund of $180,000, which is being raised for the college. Two Pasadena women have contributed generously to this fund, Mrs. Gooding Harrison, a member of the class of 1854, subscribing $1000 and Mrs. Faithful Shipley Eby of the class of '53 giving a like sum.

Another distinguished guest at the Thursday assemblage was Mrs. B. T. Vincent of Denver. Mrs. Vincent was a member of the graduating class of 1855 and is the wife of Dr. Vincent, brother of Bishop John H. Vincent, founder of Chautauqua. For the past eighteen years Mrs. Vincent has been president of one of the most unique woman's club in the world—that which assembles every summer at Lake Chautauqua on the grounds of the famous summer university. It includes in its membership women from every state of the union, from Canada and even from foreign countries, who assemble at Chautauqua every summer and hold daily sessions for two months discussing all topics of interest not only to women, but to the nations of the earth. From this Chautauqua Woman's club has come the inspiration and the uplift that, like a seed planted in fertile soil, has been the beginning of many another club formed by some woman or group of women who caught their first idea of the power and purpose of women's work and influence from the Chautauqua organization which is one of the many-sided features of Bishop Vincent's famous "Chautauqua idea" which has multiplied into many Chautauquas scattered all over the world.

Dr. and Mrs. Vincent have been spending a month at Long Beach and leave tomorrow for their home in Denver and later will go on to Lake Chautauqua in western New York here they have spent their summers for the past thirty-five years. It is their expressed determination, however, to return to Los Angeles next November for a six months' visit.

A remarkable feature of the gathering on Thursday was the fact that there were present representatives of every one of the seven administrations of Woman's college, for the institution has had but seven different presidents since its founding in 1847. One of the youngest members present was Miss Helen Kennedy of the class of 1908, who is now in the Los Angeles public library and whose father, Dr. Kennedy, now a resident of this city, was at one time a professor in Illinois college.

Many were the reminiscences, grave and gay, and many were the broken ties of the long yesterday renewed at his reunion. The hostess was Mrs. Weir Elliott of the Bryson and she entertained the company in delightful fashion. Coffee and sandwiches were served and a great trya of the dainty Cecile Brunner roses, from which the guests were invited to help themselves freely, was a charming adjunct of her hospitality.

RHEUMATIC SUFFERERS ASTOUNDED

RHEUMA Acts On Kidneys, Liver and Blood the First Day—and Out Goes Uric Acid Poison.

Anybody can afford to pay 50 cents to get rid of terrible Rheumatism, Sciatica or Gout, and that's all RHEUMA costs at Coover and Shreve's who say that if it doesn't do all that is claimed for it, money back.

It's wonderful how speedily this simple remedy takes hold and how the sore muscles limber up and the swollen joints come down to normal. Make no mistake—RHEUMA costs but little, but it's the best remedy you can find to drive Rheumatic poisons from the system and bring back health to misery-racked bodies.

"I had Rheumatism for a long while, and tried many medicines, but was not cured until I used RHEUMA. I cannot praise RHEUMA too highly. My advice to those suffering from Rheumatism is to use case."—C. B. Lanham, Sattes, W. Va., April 27, 1912.

SLAYER OF LITTLE BOY TO HANG

Washington, D. C., May 15.—Sentenced to be executed in the district jail tomorrow for one of the cruelest murders in the criminal annals of Washington, Tony Milano's only hope of escaping the gallows lies in the remote possibility that President Wilson may grant an eleventh hour stay. Milano, an Italian shoemaker with a little shop at 4th and H streets, was convicted on a charge of having killed twelve-year-old Harry Smith with blows of a hammer the night of September 9, 1911.

It was alleged that the boy went to the shoe shop to get change and that Milano, who had been annoyed by other boys, thought the boy's stammering was a method of making fun of him. Early on the morning following the alleged murder Milano set fire to his shop, it was contended for the purpose of destroying evidence of his crime. A sister of his victim, driven frantic by the death of her brother, later took her life.

BANKERS MEET AT SAN DIEGO

San Diego, Cal., May 15.—Many leading bankers and financiers of the Pacific coast were present here today at the opening of the annual convention of the California Bankers' association. The exchange of greetings and the annual reports of officers and committees occupied the initial session. This afternoon the visitors were taken on an automobile ride to Point Loma and the exposition grounds. The convention will continue until Saturday night.

PRESBYTERIANS IN HARMONY

Atlanta, Ga., May 15.—With nearly 5,000 guests within her gates Atlanta is doing her best to be an ideal hostess to the great gathering of Presbyterians which opened here today. The occasion is the first in the history of the Presbyterian denomination that the four branches of the church have met at the same time and place. The joint meeting of the general assemblies represents the Presbyterian church of the United States of America, northern branch; the Presbyterian church of the United States of America, southern branch; the United Presbyterian church and the Associated Reformed church.

The sermons of the retiring moderators and the elections of their successors occupied the time of the general assemblies today, following the work of organization. That the joint gathering is regarded as a giant stride toward the union of all Presbyterians was indicated the tone of the opening addresses. The Southern Presbyterians and the United Presbyterians are to combine into one organization before the end of the present assemblies. While there is no expectation that the northern and southern branches of the church will be united in the immediate future, the hope is expressed on every hand that this end may be accomplished within a very few years.

MILITARY WEDDING IN WASHINGTON

Washington, D. C., May 15.—A wedding of interest in military circles took place in St. John's church at noon today, when Miss Feroline Perkins, daughter of Mr. and Mrs. Henry Cleveland Perkins became the bride of Captain Robert Wallach, U. S. A. The Rev. Roland Cototon Smith, rector of St. John's officiated at the ceremony. The wedding journey of the bridal couple will end at Fort Ethan Allen, Vermont, there Captain Wallach is stationed.

Bowels Get Weak As Age Advances

The First Necessity is to Keep the Bowels Gently Open With a Mild Laxative Tonic.

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily digested foods and by plenty of exercise, but this latter is irksome to most elderly people. One thing is certain, that a state of constipation should always be avoided as it is dangerous to life and health. The best plan is to take a mild laxative as often as is deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physics, salts and pills be avoided, as they do but temporary good and are so harsh as to be a shock to a delicate system.

A much better plan, and one that thousands of elderly people are following, is to take a gentle laxative-tonic like Dr. Caldwell's Syrup Pepsin, which acts as nearly like nature as is possible. In fact, the tendency of this remedy is to strengthen the stomach and bowel muscles and so train them to act naturally again, when medicines of all kinds can usually be dispensed with. This is the opinion of many people of different ages, among them Mr. O. P. Miller, Baroda, Mich., who writes: "I am 80 years old and have been constipated for many years. Since receiving your sample bottle I have procured two 50c bottles and find

MR. O. P. MILLER

that it is the best remedy I ever used and does just what you claim for it to the very letter. I can not recommend it too highly."

A bottle can be bought of any druggist at fifty cents or one dollar. People usually buy the fifty cent size first, and then, having convinced themselves of its merits they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Any elderly person can follow these suggestions with safety and the assurance of good results.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

A STRONG REFERENCE.

A young man recently applied for a position with a large printing house, and not having a letter of reference, offered his bank book. It showed a regularity of entries of deposit. It was a very strong recommendation, indicating character and persistency, which finally secured for him a good position.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCK QUOTATIONS WERE SCALED DOWN

MANY NEW LOW RECORDS FOR THE YEAR WERE RECORDED.

Obvious Lack of Demand Induced Bear Traders to Sell—Cotton Oil Broke Over Four Points—Canadian Pacific Was Again Pressed For Sale.

(By Associated Press)

New York, May 15.—On small volume of business quotations of stocks were scaled down again today. Nearly a dozen new low records for the year were reached, although none of the active stocks was in the list. The day's news did not affect speculative conditions materially, and traders were disposed to hold off still longer before taking an aggressive position. The obvious lack of demand for stocks induced bear traders to sell, but they attacked the list half-hearted.

While selling appeared to be largely for the short account there were signs of liquidation in various quarters and some losses. The fertilizer group was heavy. Cotton oil, the weakest of the shares, broke over four points. Canadian Pacific was again pressed for sale. The thinness of the market was illustrated by the expenses of brokers who were called upon to dispose of small blocks of inactive stocks. In some instances it was necessary to make substantial concessions to find a buyer. A case in point was Railway Steel Spring preferred, which broke nearly 7 points on a single sale.

The expected engagement of $2,000,000 more gold for France was announced bringing up the total for the present movement to $10,000,000. The bank of France in its weekly statement reported an increase in gold in hand to $1,826,000, but only one of the shipments made to France since exportations were resumed reached Paris in time to figure in the report. Although the bank of England reported a loss of over $2,500,000 gold for the week, the proportion of reserves to liabilities was raised to slightly above 50 per cent, the highest of the year.

Chesapeake & Ohio, the maintenance of whose dividend rate has been under discussion, turned strong on the announcement of an extra dividend of 4½ per cent and Hocking Valley, a controlled line. Chesapeake & Ohio sold off sharply, however, when it was made known that the regular dividend had been declared. The action of the New Haven board on the dividend rate was not taken until after the close of the market, so that it had no effect on trading.

GENERAL SMITH QUITS ACTUAL SERVICE

Washington, D. C., May 15.—Brigadier General Frederick A. Smith, who has been commanding the fifth brigade at Omaha, was placed on the retired list of the army today on account of having reached the age limit of 64 years. General Smith is a native of New York and was graduated from West Point in 1873. His entire career has been in connection with the infantry branch of the service. In his early days as an officer he served in Indian campaigns in Ariozna, Nevada and the Dakotas. In the war with Spain he saw active service in Cuba and Porto Rico and later participated in the suppression of the insurrection in the Philippines. He reached the grade of brigadier-general in 1908.

BUYING BRINGS RALLY IN WHEAT

MARKET CLOSED FIRM AT PRICES RANGING TO SLIGHT ADVANCE.

Previous to Upturn the Quotations Had Been Depressed by Statements That Russian Crops Promised Huge Returns—Corn Displayed Firmness.

(By Associated Press)

Chicago, May 15.—Buying on the part of the new investors brought about a rally today in wheat. Despite early weakness the market closed steady at prices ranging from last night's level to ⅝c above. Corn finished a shade off to ⅛c up, oats with a gain of ⅛ to ¼c and provisions dearer by 5@7½ to 20c.

In the opinion of many traders, selling of wheat had been considerably overdone. This judgment was confirmed about midday when purchasing became somewhat aggressive and shorts hurried to cover. The bulls were encouraged by milling sales of 150,000 bushels and by sales of 350,000 bushels to eastern export houses. Besides, clearances at the seaboard were heavy, arrivals at leading terminals were light, the season in Canada said to be two weeks late and the Pacific coast states distressed by radical deficiency of moisture.

Previous to the upturn in the wheat market quotations had been depressed owing to the statements that Russian crops promised huge returns and because of excellent weather and soil conditions east of the Rockies. Bears, however, were unable to force more than slight reactions after the bulge set in.

Primary receipts of wheat today were 545,000 bushels, last year 591,000 bushels. Clearances of wheat and flour equalled 918,000 bushels.

Corn displayed firmness, the result of country offerings drying up. Rural holders declined to sell at a reduced basis.

Oats strengthened on account of reports that rains in Illinois and Indiana did not extend as far south as expected.

Packers and foreigners appeared to have taken to the buying side in provisions. Hog receipts were meagre.

CHRISTIAN CITIZENSHIP CONFERENCE WILL BE HELD IN PORTLAND

Great Gathering On the Coast Will Be Addressed By Distinguished Men From All Parts of the World.

Rev. Clyde Darsie, pastor of Central Christian church is among those who have been especially invited to attend the second world's Christian citizenship conference to be held at Portland, Oregon, June 29, to July 6th.

In more than fourteen states definite organizations are being formed under state secretaries and it is certain that some eminent man from this state has been or will be named for this important post.

More than 100 of the world's greatest orators will take part in the conference which will attract more than 20,000 persons to Portland. The affair is everywhere regarded as the most important religious and social movement of modern times.

Representative men from all Christian countries have been invited and will be welcomed to this international symposium on Christian citizenship, peace and war, emigration and immigration, education and religion, the family and divorce, prison reform and civil service, social conscience and personal character, the obligations and observance of one holy day in seven, the physical and spiritual evils of intemperance and how to meet them, social evils and their preventatives and remedies, the claims upon society of its delinquents and dependents, the ethical values of Christianity and the Christian presuppositions of a sound ethic—these and many other vital themes will be considered, not with a view to the trying out of certain theories simply, but to the end that a better understanding may be reached, a mutual alvantage from past experiences derived, and a broader and higher platform of Christian citizenship everywhere permanently achieved.

Among speakers and their subjects will be the following:

The Moral Implications of the Right of Suffrage—President Woodrow Wilson, Trenton, N. J., U. S. A.

Socialism — Raymond Robins, Chicago, Ill., U. S. A.

Christian Forces in Levant—Dr. Armenag Haigazion, Konia, Asia Minor, Turkey.

The Necessity of An Awakened Public Conscience—Judge A. Z. Blair, Portsmouth, Ohio, U. S. A.

Religious Instruction in State Educational Institutions—Dr. James S. Martin, general superintendent National Reform Association, Pittsburgh, Pa., U. S. A.

Municipal Reform — Rev. Dr. Mark A. Matthews, Seattle, Wash., U. S. A.

Prison Reform—Hon. Oswald West, Salem, Ore., governor of Oregon.

The Obligations of the West to the East—Dr. Isaac Taylor Headland, Pekin, China.

Religious Fundamentals in the Common Law—Dr. Richard Cameron Wylie, Pittsburgh, Pa., U. S. A.

The General Scope and Purpose of the Portland Conference—Dr. Henry Collin Minton, president National Reform association, Trenton, N. J., U. S. A.

The Moral Accountability of Nations—Dr. J. A. Macdonald, editor Toronto Globe, Dominion of Canada.

VISITED COUNTY POOR FARM.

Members of the Morgan county grand jury made the semi-annual visit to the county farm Thursday. It was announced earlier in the week that the jury had agreed to send a committee for this inspection work in order to save time for themselves and money for the county but this decision did not stand and the jurors yesterday took passage in two large carryalls and drove to the farm. They made the rounds of the farm where it is understood they found satisfactory conditions and certain it is that they enjoyed the dinner served by Mr. and Mrs. Lewis.

URGES EFFICIENCY METHODS IN MISSIONARY WORK

Miss Heck Made Interesting Address at 25th Convention of Union in St. Louis.

St. Louis, May 15.—Application of modern efficiency methods to missionary work was urged today by Miss F. E. S. Heck, president of the Woman's Missionary Union, in an address before the twenty-fifth annual convention of the union. Miss Heck proposed the appointment of three commissions to study the question and report back to the union at its next annual meeting.

"Missionary efficiency is still nebulous," Miss Heck asserted. "From the sum of our methods we should be able to deduct a definite standard of missionary efficiency. An versal standard is to abandon, once important step in reaching a unifor all, the belief that our circumstances are peculiar. Organizations in the same line of business have the same standard of effort and result, and the one that does not reach it fails in business. In so homogeneous a territory as ours, a method notably successful in one state will be found, with rare exceptions, successful in another.

"In placing before the individual society a uniform standard, we have gone far towards standardizing their work, However, we have given few authoratative corrections for its attainment. In the methods of the society in town and country there must be a difference, but the problems of towns and country places from one end of our territory to the other are the same. Hundreds of our best, most thoughtful and consecrated women are giving uncounted time to solving them. How shall all profit by the failures and successes of all? How shall the lonely worker be enriched by the counsels of hundreds?"

Garland & Co. have boys' suits, each one a winner.

ELECTION OF OFFICERS.

Organist—Miss Alma Leak.

FUND FOR CHURCH REPAIRS.

Campaign on at the Bethel A. M. E. Church.

The members of the Bethel A. M. E. church, together with their capable pastor, Rev. S. B. Shaw, are endeavoring to raise $1500 by the first of July, in order to make some needed repairs on their church building. Recently the Sunday school room has been nicely fixed up and quite an interest is manifested among the members toward the good work. The church has been divided into conferences to raise funds and last night the "Shipwreck and Rough Riders" gave a banquet in the church parlors. There were three tables and thirty-eight sat down to each table where a splendid supper was served. The church was beautifully decorated in pink and white. During the evening music was furnished by Mallory's orchestra. A grand march was lead by Rev. J. W. Kirk and Mrs. Mary Clark. Mrs. Fannie Tate is head of this conference.Rev. Mr. Shaw is doing a good work for his church and his services are highly appreciated.

WILL MAKE BUTTER.

In addition to the refrigerating machinery which Swift & Co. will install in the addition to be made to their North Main street plant there will be a butter making department. The plan is to purchase cream from farmers in this locality and ship the butter manufactured to Swift & Co. agents at other points. The firm has a number of creameries in Illinois operated in connection with the other lines of business.

HELD SUCCESSFUL SUPPER.

Thursday evening the Ladies Aid society of Ebenezer church held a very successful supper at the church, the receipts of which amounted to $50. This is the first supper the ladies have held since the church was remodeled and it was held in the basement of the building, which is fitted up especially for such gatherings. A large number of people were served with an excellent menu by the ladies and the success of the event was the result of the untiring work of the members of the society.

CARPENTERS CALLED OFF.

Union Sheet Metal Workers Claims Their Rules Are Being Broken.

Thursday morning representatives of the Sheet Metal Workers went to the residence which contractor M. G. Fernandes is building for Mrs. Alex Smith on West State street and called the carpenters off. The complaint is that Mr. Fernandes has been lying valleys and gutters, which is contrary to the rules of the workers. Mr. Fernandes claims that he had the right to law the metals, just so members of the union were allowed to do the soldering. The Sheet Metal Workers not only object to the contractor laying the tin, but also object to any carpenters doing work on the job. Mr. Fernandes has threatened that he will bring suit against the Building Trades Council for persuading his men to stop work and also states that the work is in such a state, that in case of a big rain much damage would result, let alone the loss sustained by failure to get the job done at the specified time. There is no trouble between the carpenters and Mr. Fernandes but the carpenters feel that they must obey the dictates of the Building Trades Council. The trouble is the outgrowth of a difference between the sheet metal workers who are on a strike against Brady Bros., who are furnishing the metal materials for the Smith house. It is understood that a representative from the amalgamated organization will be in the city today from Springfield in order to bring about a settlement of conditions.

BIRDMAN TALKED TO DEAF PUPILS

Mr. and Mrs. "Jimmy" Ward were present at the chapel hour at the I. S. D. yesterday morning and following the regular exercises Mr. Ward made a most interesting and instructive talk on the art of the aviator. He spoke briefly but said so much that everybody felt well repaid for his presence. Mrs. Ward also spoke a few words and was most happy in her remarks. Mr. Ward said that he would make an effort to land on the Institution grounds in the afternoon flight, but as that had to be declared off on account of the high wind the children were much disappointed. When Mr. Gillett introduced Mr. Ward to the audience he requested all who had seen the flight over the city to raise their hands. At the sight of the childish hands filling the air and the bright faces, the aviator beamed his gratification.

REPRESENTATING STATE ASSOCIATION

John M. Widenham, of Illinois college, is in Worcester, Ohio, today attending the annual contest of the Inter-State Oratorical association. Each state sends two representatives, the winner in the state contest and an officer of the state association. Mr. Widenham is in Worcester in the later capacity, the orator this year is from Monmouth college.

MORTUARY

Champe.

County Surveyor N. J. Champe of Brown county was found dead last Sunday morning in his bed. Mr. P. H. Allen of Meredosia visited his rooms which he occupied on North Capitol avenue at Mt. Sterling. He noticed him lying in bed, apparently asleep. He did not disturb him but went back some time later and then it was first learned that he was dead. His wife died in 1906 and he is survived by three children. He had filled the position of justice of the peace, and was serving as police magistrate when he died.

Devore.

Mrs. William Devore, aged 62 years, died Thursday morning at 5:25 o'clock at her home, 1536 S. Main street, after a brief illness. Mrs. Devore was seemingly in her usual good health Sunday when she attended church, and Monday afternoon was stricken with paralysis, and never regained consciousness.

Mrs. Devore, whose maiden name was Emma Davenport, was a daughter of Rev. M. C. and Huldah Davenport, and was born at Pisgah, Aug. 22, 1850. At the age of seventeen years she was converted and joined the Baptist church, afterward becoming a member of the Asbury Methodist church.

September 29, 1869, she was married to William Devore and they were the parents of ten children, one of whom died in infancy and another, Della May, passed away at the age of 17 years. She is survived by her husband, eight children: Clara, Marion Albert, Fannie and Edward at home, Harvey and Mrs. Elmer Smith of Jacksonville, Mrs. Charles Mason of Asbury and John of Kankakee; one brother, James H. Davenport of this city; one sister, Mrs. W. Barlow McIntyre of this city, and eight grandchildren.

Mrs. Devore was a Christian in practice as well as in theory and her life was exemplary of her religious teachings. Quiet and unassuming in manner, she performed her daily tasks cheerfully, found her greatest pleasure in the home and was unselfishly devoted to her family. She was possessed of a disposition which endeared her to many and during her long and useful life made a wide circle of friends.

Brief funeral services will be held at the late residence this afternoon at 1:30 o'clock, after which the remains will be taken to Asbury church where more extended services will be held at 3 o'clock in charge of Rev. Hy S. Alkire, assisted by Rev. W. L. Dorgan. Interment will be made in Asbury cemetery.

Price.

Word has been received in the city of the death of Mrs. Jessie Loose Price, who died Wednesday in Springfield, at the Leland hotel after a long illness. She was the daughter of Mr. and Mrs. Jacob Loose and was born November 7, 1852 in Springfield. She married Dr. Jacob F. Price, who passed away in 1885. She is survived by four children; Jessie Elizabeth of Springfield, Jacob of Chicago, Charles and Joseph of Los Angeles, Calif. She also leaves two sisters and four brothers. Mrs. Price has a number of friends in Jacksonville who will regret to learn of her death. The funeral will be held at 3 o'clock today from the residence of her cousin Miss Mary Lewis at Springfield.

Baseball—Lombard vs. Illinois Sat. 3 p. m. on Ill. field.

LAST DAY OF RACES.

The last day's program of the races at the Driving park were held Thursday and about five hundred people were in attendance. The motorcycle and automobile events were pulled off on schedule time and some close and exciting events were witnessed. On account of the high wind Aviator Jimmy Ward was unable to make his intended flight in the afternoon. He waited some time after the races were over but the wind kept up a good rate long after the crowd had dispersed. The company goes from here to Quincy where they will show Friday and Saturday at Baldwin park.

AT THE GRAND.

"The Criss Cross Elopment," given by the Florence Payton company at the Grand Thursday evening pleased a large audience and was well presented. By request the play will be repeated tonight. In addition to the play Manager Hunt gave five reels of excellent pictures and altogether the show was well worth the money.

SUNDAY SCHOOLS CHOOSE CHICAGO FOR CONVENTION NEXT YEAR

Sessions at Beardstown Close Friday With Election of Officers.

With the selection of Chicago as the meeting place for 1914 and the election of officers, the Illinois State Sunday School convention closed a three days' session at Beardstown Friday.

The sessions have been unusually interesting and instructive and a number of excellent addresses were heard. A committee on resolutions reported at the Friday session and their report endorsed the stand of President Wilson and Secretary Bryan on the liquor question and the abolition of the use of wines and other intoxicants at banquets; against cigarettes, and commended Beardstown on the excellent entertainment afforded the delegates.

Among those from Jacksonville who attended the sessions were Rev. and Mrs. F. A. McCarty, Rev. and Mrs. G. W. Flagge, Mrs. J. I. Graham, Miss Josephine Morey, Miss Josephine Ross, Dr. and Mrs. C. C. Patchen, Miss Alice Wadsworth, Miss Georgia Lutkemeyer, Rev. Clyde Darsie, Rev. Walter E. Spoonts, Clarence L. DePew, Miss Mary Dewees, Mrs. J. R. Peckham and E. M. Vasconcellos.

The following officers were elected:

President—E. H. Kinney, Beardstown.

First vice-president—C. L. Hamilton, Dwight.

Second vice-president—S. A. Wilson, Chicago.

Treasurer—F. D. Everts, Highland park.

Executive committee—G. E. Cook, Elgin; R. J. Brown, Springfield; J. N. Dunlap, Quincy; W. S. Milford, Peoria; W. S. Rearick, Ashland.

Sleeping Porch

In the production of Vudor Porch Shades no effort has been spared; first, to design a shade with the strips and the space between them so proportioned as to keep out the sun but to let in the breeze; to prevent outsiders from seeing in, while permitting insiders to see out, and at the same time make a shade that has stability with lightness and beauty.

Second, in selecting the best materials for their respective purposes, a fine quality of wood-fibre was chosen for the strips or slats, because it has strength, flexibility and lightness, and because it is a good non-conductor of heat.

Not only make your porch
Cool by Day
but cool adjoining rooms, and give you by night a perfect
Sleeping Porch

For binding these strips together seine twine, such as is used for fishing nets, was chosen because of its strength and wear-resisting qualities. Even the cords used for raising and lowering Vudor Porch Shades are of special manufacture, being what is known as "half-twist" cord. This cord does not curl nor loop up and stick in the pulleys as common twist cord would do. The pulleys furnished with Vudor Porch Shades are of japanned iron and of ample size to permit of the cords running through them easily and freely.

Another good feature about Vudor Porch Shades is the peculiar fact that those sitting on the porch or veranda can see out, but the passersby cannot see in. In other words, you have complete privacy, and can use the porch or veranda the same as an inside room, with infinitely more comfort on hot days than any room can possibly afford.

We have these in stock in all widths, in the Baronial brown and forest green colors.
